Investments in Affiliated Issuers - An affiliated issuer is an entity in which the Fund has ownership of at least 5% of the voting securities. Issuers that are affiliates of the Fund at period-end are noted in the Fund's Schedule of Investments. Additional security purchases and the reduction of certain security shares outstanding of existing portfolio holdings that were not considered affiliated in prior years may result in the Fund owning in excess of 5% of the outstanding shares at period-end. The table below reflects transactions during the period with entities that are affiliates as of December 31, 2023 and may include acquisitions of new investments, prior year holdings that became affiliated during the period and prior period affiliated holdings that are no longer affiliated as of period-end.
